

6 January 1969

25X1A

You will find a fairly good draft of our section of Ray's report attached. You will note that Section 3.3.8. - Application of the Method is not included. I am presently working on this section; but I am sure you may have a copy when you return.

I have physically moved to OSP; but, will continue to work on this study for a couple of weeks. My new telephone numbers are 351-5263 or 965-2120. We have made several computer runs and the results are exciting. For example,

25X1D

The tasking for various combinations of systems change dramatically.

If you don't return soon, you are going to miss the "harvest" (or will it be the "planting") season.

I hope to see you during your next trip. Thanks for the Xmas card. Happy New Year.

Sincerely,

25X1A
